| 7514<br>8 | <a href="#">UL 2700-1 PDF</a> | This standard covers cleaning products that contain microbes, including products sold to individual consumers and products sold for institutional and industrial use. It applies to product subcategories such as cleaners, degreasers, drain additives, septic tank additives, carpet and upholstery cleaners, odor controlling additives, RV tank treatments, marine tank treatments, grease trap additives, and urinal blocks.                                                                                                                                                                  | UL |
| 7515<br>2 | <a href="#">UL 1441A PDF</a>  | UL 1441A Edition 1 covers woven, braided, knitted, expandable, shrinkable, spiral wrap, and polymeric sleeving used for cable management in electrical installations, including securing, covering, harnessing, and providing additional protection to bundles of wires and cables. It applies to sleeving installed as an outer covering for conductors, cords, cables, tubing, and similar items, including use under specific exposure conditions such as flammability, oil, and sunlight; it is intended for installation over insulated conductors and does not provide electrical insulation | UL |
| 7515<br>5 | <a href="#">UL 2703A PDF</a>  | This outline covers flashing materials, devices, and systems intended to resist water penetration into the building interior where photovoltaic rack mounting systems penetrate roof covering systems. It applies to products intended for installation in accordance with the IBC or IRC and the installation instructions, and it excludes fire performance, structural attachments, structural performance of roof attachments, mechanical and structural IBC/IRC requirements, and resistance to tornado, cyclone, or hurricane wind forces                                                    | UL |
| 7515<br>8 | <a href="#">UL 1551 PDF</a>   | UL 1551 Edition 4 covers the construction and performance requirements for sprinkler systems wire intended for direct burial to provide service for satellite solenoid control on golf courses and lawns, and for termination to Type UF or USE cable. It includes cables rated 30, 300, or 600 V and 60 °C (140 °F) or 75 °C (167 °F), with specified conductor size ranges for jacketed multi-conductor and single-conductor cables                                                                                                                                                              | UL |
